

**Date: 10.06.2026**

Dear Parents,

Greetings from Shrishti Schools

We sincerely appreciate your wholehearted support in promoting environmentally responsible practices among our students. It is encouraging to note that most of our students are already bringing **stainless steel lunch boxes and metal water bottles**, reflecting our shared commitment towards a greener future.

As part of our ongoing **Plastic-Free Campus Initiative**, we request all parents to continue encouraging their children to avoid the use of single-use plastics and non-biodegradable materials within the school premises.

Let us work together to:

- Continue using stainless steel lunch boxes.
- Encourage the use of metal/stainless steel water bottles.
- Avoid disposable plastic covers, plastic cutlery, and other single-use plastic items.
- Promote eco-friendly and sustainable alternatives whenever possible.

By nurturing these habits in our children, we are helping them become responsible citizens who care for the environment and contribute positively to society.

We thank you for your continued cooperation and support in making Shrishti Schools a truly eco-conscious and plastic-free campus.

**Together let us build a cleaner, greener, and more sustainable future.**

Warm Regards,

  
**Head of Schools**
