## Teachers' Day Celebration

Shrishti Vidyashram celebrated Teachers' Day on 3rd September with great enthusiasm and warmth, in observance of National Teachers' Day, celebrated across India on 5th September. The day marks the birth anniversary of Dr. Sarvepalli Radhakrishnan, the second President of India and a renowned philosopher, scholar and educationist. His birth anniversary is commemorated as Teachers' Day as a tribute to his contribution to education and his deep regard for the teaching profession.

The celebration was organised as a gesture of gratitude and appreciation towards the teachers who guide,

encourage and support students throughout their academic journey. The programme brought together the students and staff for a special occasion dedicated to recognising the important role played by teachers in shaping young minds.

The programme began with a prayer song, followed by a classical invocation dance by the students. The performances set a pleasant and graceful tone for the celebration and marked the beginning of the special occasion.

The welcome address was delivered by Harisanth A, Head Boy of Shrishti

# October...

*A Crimson Dance and the Harvest Moon!*

The final, deep harvest of the year,  
Signals that winter days are near.

A swirl of leaves in crimson and gold,  
Tells a story of stories untold.

With chilly mornings and frosty air,  
Come cozy firesides and warmth to share.

Under the gleam of the hunter's full moon,  
The world is awash in autumn's sweet tune

**DO YOU KNOW?**

October is named from the Latin word 'octo' (meaning 'eight'), as it was originally the eighth month in the ancient Roman calendar.

-Vidyashram, and A Tharun, Head Boy of Shrishti Matric. The address formally welcomed the gathering and conveyed the students' gratitude towards the teachers for their constant guidance, encouragement and support.

The welcome address was followed by a special cake-cutting ceremony. M. S. Saravanan, Head of Schools, Shrishti Schools, proceeded with the cake-cutting, joined by the teachers who came forward to the stage to mark the occasion together. The moment brought a sense of togetherness to the celebration and was warmly received by the students and staff.

The programme continued with a series of student performances and activities planned especially for the teachers. One of the highlights of the celebration was a lively flash mob, which brought an element of surprise and excitement to the programme. The performance created an energetic atmosphere and was met

with enthusiastic responses from the teachers and students.

Adding a modern and interactive element to the celebration, a Mentimeter quiz was also conducted for the teachers. The activity allowed teachers to participate using their devices and respond to the questions in real time, making the celebration more engaging and interactive. The inclusion of the digital quiz brought a fresh and innovative touch to the traditional Teachers' Day celebrations.

The celebration was made possible through the collective efforts of the Student Councils of both Shrishti Vidyashram and Shrishti Matric. The councils worked with dedication and coordination in planning, organising and conducting the event. From coordinating the programme and performances to managing the arrangements and ensuring the smooth flow of the celebration, the student councils played an important role in making the occasion special for the teachers

More than just a formal celebration, the occasion provided students with an opportunity to acknowledge the influence teachers have on their lives. Teachers play a role that extends beyond academics, offering guidance, encouragement and values that continue to shape students as they grow.

The programme concluded with the vote of thanks delivered by Ms. Preethi J, KG Coordinator, Shrishti Vidyashram, who expressed her appreciation to everyone who contributed to the successful conduct of the celebration.

The Teachers' Day celebration concluded on a joyful and memorable note, leaving the students and teachers with a renewed sense of appreciation for the bond they share. The occasion served as a fitting tribute to the teaching community and to the legacy of Dr. Sarvepalli Radhakrishnan.

## A Day of Fun, Friendship and Adventure at Wonderla!

The students of Classes VI, VII and VIII enjoyed an exciting series of educational and recreational trips to Wonderla, Chennai, held from 18 to 20 August 2026. Class VI visited on 18 August, followed by Class VII on 19 August and Class VIII on 20 August.

The trips offered students a wonderful opportunity to step beyond the classroom and enjoy thrilling rides, engaging attractions and memorable moments with their friends and teachers. The excitement, laughter and cheerful spirit of the students made each day truly special.

Beyond entertainment, the visits encouraged students to build friendships, develop confidence and create lasting memories together. The Wonderla trips were a perfect blend of fun, adventure and camaraderie, making them a much-awaited highlight of the school calendar.

## Krishna Janmashtami Celebration

Shrishti Schools celebrated Krishna Janmashtami on 3 September 2026 at the Open Auditorium with great enthusiasm, devotion, and festive spirit.

The celebration brought alive the enchanting world of Lord Krishna, giving our young learners an opportunity to understand the significance of Janmashtami and connect with our rich cultural traditions. The enthusiastic participation of the children added great value to the celebration, helping them

gain a deeper understanding and appreciation of our traditions and culture. Adding to the festive charm, our kindergarteners arrived dressed as adorable little avatars of Lord Krishna, Radha, and the various forms of the Dashavatharam. Their graceful and colourful costumes brought the spirit of the celebration to life, making the event truly vibrant, wholesome and memorable.

The vibrant decorations, devotional ambience and active participation of the children beautifully reflected the timeless values

associated with Lord Krishna—love, kindness, compassion, friendship and righteousness.

The celebration provided our children with a wonderful opportunity to experience the joy of learning, celebrating and preserving our cultural heritage together as a school community.

The day concluded on a cheerful note, leaving everyone with beautiful memories and the spirit of devotion, love and togetherness.

**- Ms. Preethi .J (KG Coordinator)**

## Teacher Development Programme

Shrishti Schools, Vellore, organised an Orientation Program for Teachers on the topic "Outcome-Based Teaching and Competency-Based Teaching" on 10 September 2026, led by Mr. Ramprabakar, Educational Consultant and Advanced Certified Counsellor.

The enriching session invited teachers to look beyond content delivery and focus on meaningful learning, measurable outcomes and authentic competency development. It explored the Cognitive, Affective and Psychomotor domains and emphasised that knowledge forms the foundation upon which competency is built through application, judgement and performance. Through the Intention-Evidence-Action cycle, teachers reflected on designing purposeful learning experiences, gathering evidence of learning, providing timely feedback and responding to learners' needs. The session also highlighted the use of clear, observable action verbs to frame effective learning outcomes.

The programme culminated in a renewed commitment to creating thoughtful, engaging and learner-centred classrooms, where knowledge is not merely acquired but transformed into understanding, application and competent action.

## PRE-KG Movie Day: A Splash of Fun with Finding Nemo

The Pre-KG students enjoyed a delightful Movie Day at the AC Auditorium, where they were treated to a special screening of the much-loved animated movie Finding Nemo. The event created a joyful cinema-like experience for the little ones, filled with excitement, laughter and wonder.

The children eagerly settled into the auditorium and enjoyed their movie experience with popcorn and juice,

making the screening even more special. Finding Nemo took them on an exciting underwater adventure while gently introducing them to themes of love, family, friendship, courage and perseverance.

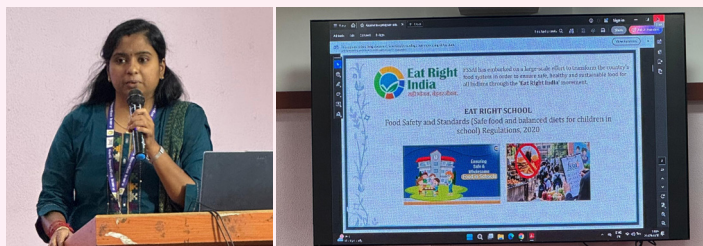

The Movie Day provided a refreshing break from the regular classroom routine and offered the children an opportunity to enjoy, learn and experience the magic of storytelling

together. Their cheerful faces and enthusiastic participation made the event truly memorable.

It was a wonderful day of fun, imagination and learning, leaving our little movie stars with happy memories to cherish.

## Food Safety Awareness Programme

A workshop on "Awareness of Food Intake and Balanced Diet" was conducted for the students of Grade IX at the Manu Makhija Auditorium on 25 September 2026 by Ms.L.Kasthuri from food safety department. The session aimed to create awareness among students about making healthy and informed food choices in their daily lives.

The workshop focused on understanding the importance of monitoring the intake of salt, fats, sugar and carbohydrates. Students were encouraged to become more mindful of the ingredients present in commonly consumed foods and to understand how excessive intake of these components can affect overall well-being.

The session also highlighted the importance of having a balanced diet that includes a variety of nutritious foods in the right proportions. Through simple explanations and practical examples, students learnt how healthy eating habits can contribute to better growth, energy, concentration and overall wellness. The interactive workshop encouraged students to develop responsible eating habits and make healthier choices for a stronger and healthier future.

## Enhancing Knowledge about AI and Exploring AI Tools

An insightful Orientation Programme on "Enhancing Knowledge about AI and Exploring AI Tools" was conducted for the students of Grade XII on 26th September.

The programme aimed to familiarise students with artificial intelligence and its practical applications in academics and future career opportunities.

The session was graced by Mr. Swami as the Chief Guest, who explained how AI tools can support effective learning.

He highlighted the importance of crafting clear and precise prompts to obtain relevant responses and demonstrated ways to use AI as a learning companion. A key highlight was his demonstration of Google NotebookLM, showcasing how study notes can be transformed into engaging audio summaries and quizzes to make revision more interactive.

He also demonstrated how ChatGPT can help students understand subject concepts, clarify doubts and explore explanations suited to their learning needs. Through these practical demonstrations, students gained insights into making their study sessions more productive and engaging.

The highly informative and interactive programme encouraged them to explore AI thoughtfully, strengthen their understanding of subjects, and embrace technology as a valuable tool for learning, innovation and career growth.

## EXCURSION

### Grade I (23.09.2026)

Grade I students enjoyed a fun-filled excursion to Happy Kydz, Viruthampattu, Vellore, filled with laughter and excitement.

Through playful activities, they learnt sharing, teamwork, cooperation and confidence.

Their bright smiles and enthusiastic participation made the day truly special.

With delightful treats and happy moments, the children created wonderful memories together.

It was a joyful day of fun, friendship and learning through play!

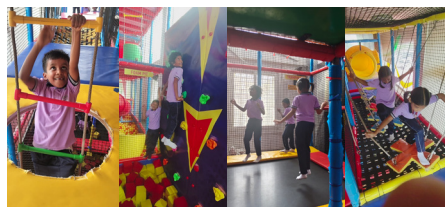

**- Ms. Antony Shirla**  
Dept. of Mathematics

### Grade II (22.09.2026)

The Grade II students embarked on a delightful adventure to Happy Kydz, Viruthampattu, Vellore, where laughter echoed and joyful moments filled the day.

Through exciting play, creative exploration and fun-filled activities, the children learnt to share, cooperate, build confidence and enjoy teamwork.

Their bright smiles and enthusiastic participation reflected the pure joy of learning through play.

With delightful treats from Happy Kydz and the school, the day became even more special.

It was truly a memorable day of friendship, fun and unforgettable childhood moments!

**- Ms. Saranya .B**  
Dept. of Mathematics

### Grade III (24.09.2026)

The Grade III students enjoyed an exciting excursion to Fundera Animal Park, where they discovered the fascinating world of animals and birds.

Guided by an expert, the children learnt about different species, their habits and habitats. Observing wildlife up close sparked their curiosity and brought classroom learning to life.

An engaging quiz gave students an opportunity to share their discoveries, with badges awarded

to encourage their enthusiastic participation. The exciting 3D movie added a special touch to the day.

Filled with exploration, laughter and happy moments with friends, the trip created wonderful memories. It was truly a joyful blend of learning, adventure and fun!

**- Ms. Sarala**  
Dept. of Computer Science

### Grade IV & V (24.09.2026)

The students of Grades IV and V enjoyed a delightful excursion to AGS Wonder World, Yelagiri, filled with adventure, discovery and fun.

Exciting rides such as the Ferris Wheel, Dragon Coaster, Flying Chair and Bumper Cars brought smiles and laughter throughout the day. At the Birds Park, the children observed colourful birds and learnt about different species, nurturing their appreciation for nature and wildlife.

The Water Park was a special highlight, where supervised pool activities, raft slides and mat slides added to their excitement.

Sharing meals, exploring attractions and spending time together strengthened friendships and encouraged teamwork. The students returned with cheerful hearts and wonderful memories of a day that blended learning beyond the classroom with joyful recreation.

## Cultivating Character, Respect and Academic Excellence

### The Reality and Essence of Knowledge

• True Knowledge Transforms Character: True education must elevate an individual's manners and humility. If a student becomes arrogant after gaining knowledge, they have merely gathered information without understanding its spiritual essence.

• Divine Light vs. Simple Information: Knowledge is a sacred gift from God, meant to act as a guidance light in a student's heart. It is not a tool to assert intellectual dominance or win debates.

### Balancing Secular Studies with Spiritual Growth

• The "Two-Winged" Approach: Students should pursue professional paths like engineering, medicine, technology, or commerce, but must concurrently develop their spiritual character. Professional excellence should be utilized to serve humanity.

• Intention Matters: Secular education transforms into a form of worship when a student's underlying intention is shifted from pure materialism to serving their family, helping community members, and bringing honour.

### Core Advice and Etiquette for Students

• Deep Respect for Teachers: Success in education is inextricably tied to the absolute respect a student possesses for their educators and academic resources. Disrespecting teachers strips the long-term blessings and positive impact from a person's knowledge.

• Eradicating Time-Wasting Habits: Students must maintain rigorous discipline, protecting themselves from modern distractions, useless company, and harmful habits that split focus and weaken memory capacity.

• Consistent Self-Reflection: Dedicating time for daily prayer, focused practise of meditation updates a student's mental clarity and prevents arrogance from setting in during moments of high academic achievement.

- Dr. Mohammed Ismail R  
Dept. of English

## Manifestation 101: Turn Your Vision into Reality.

Every student carries a dream for the future. Some aspire to become doctors, engineers, teachers, scientists, artists, entrepreneurs or sportspersons. Others dream of making their families proud and leading a happy and meaningful life. Dreams give us direction, but they become reality when we combine positive thinking with consistent action.

**Manifestation** means clearly imagining what we want to achieve, believing in our abilities and taking meaningful steps towards our goals every day. It is not magic; it is a way of keeping our vision clear, strengthening our confidence and staying focused on what we want to accomplish.

### Dream Clearly

The first step is to understand what you truly want. Ask yourself:

What do I want to become?

What kind of person do I want to be?

What do I want to achieve in the next five or ten years?

Write your dreams down. A clearly written dream becomes a goal that you can plan and work towards.

### Believe in Yourself

Every journey has challenges, failures and moments of doubt. Instead of saying, "I cannot do it," learn to say: "I can learn."

"I can improve."

"I will keep trying."

Positive thinking does not remove challenges, but it gives us the courage and confidence to face them.

### Visualize Your Future

Take a few moments each day to imagine yourself moving towards your goal. Visualize yourself confidently receiving an award, standing on a stage, succeeding in your chosen career or making a positive difference in the lives of others.

This vision can remind you why the efforts you make today matter for your tomorrow.

### Take Action Every Day

A dream without action remains only a dream. Study sincerely, practice regularly, develop your skills and never stop learning. Remember that small, consistent efforts can lead to remarkable achievements over time.

### Be Patient

Success rarely happens overnight. Every person has a unique journey, so avoid comparing your beginning with someone else's progress. When you face setbacks, learn from them, improve your approach and keep moving forward.

### My Dream-Future Statement

"I believe in myself and my abilities. I will learn, work hard and improve every day. I will face challenges with courage, learn from my mistakes and use my talents to make a positive difference. I will shape my future through the choices and actions I make today."

### Remember

Your future is not created by wishes alone. It is built through vision, choices, positive habits, effort, perseverance and action.

Dream with purpose. Believe in yourself. Take action. Create your future.

- Mrs. S. Rajeshwari  
Dept. of Mathematics
